

OECD ILIBRARY OVERVIEW

November 2015

Nilar Andrea Chit Tun, Sales & Marketing Officer

Overview

The **OECD iLibrary** is our global knowledge base, granting access to all OECD published content, books, papers, statistics. It also contains publications from IEA, NEA, ITF and OECD Development Centre. Primarily designed for users inside institutions, whether academic, governmental, or corporate, it is now serving a much wider audience, delivering access to all content in a wide range of formats. Since **1999** OECD Publishing has progressively made content available to all users in a basic form. Since **2011**, books and journals have been free to **read on screen** on OECD iLibrary.

OECD Data organises over **160 indicators** – covering the most frequently requested and highest profile indicators – across twelve main topics. The website allows users to explore OECD data across a range of attractive, innovative, interactive visualisations including table, chart and map views. Users benefit from links to all datasets and related publications. Data.oecd.org

OECD iLibrary Key Figures (July 2015)

- Over **180.000 different content items**, more than half being tables.
- Content is available in multiple formats - including PDF, HTML, EPUB, XLS, READ, DATA, CSV – making a total of nearly **500.000 objects**.
- Over **one million full-text items** delivered monthly to users in over **150 countries**.
- Over **10.000 subscribing** institutions worldwide, including many of the world's premier universities and research institutions.
- **Future projects** include advanced premium data services, semantic enrichment, community involvement, etc.
- We will poll **subscribing institutions** regularly in order to establish needs and priorities.

Subscription Service: **Books & Journals**

The premium service provides subscribers with time-saving functions and access to publications in a **variety of formats**

- **PDF:** Access to complete books as well as individual chapters. Currently 12,000 books and 45,000 chapters and articles
- **ePub:** Mobile-friendly editions (for most new titles)
- **Excel:** Download and save tables and graphs from a publication. 40,000 tables and graphs currently available (“StatLinks”)

Practical functions

- Download/export
- Search inside
- Copy, cut and paste
- Calculate
- Citation tools
- Print

Benefits of Subscription Service

The **subscription service** is for **professional users** working or studying at a university, governmental or professional organization

- Additional functions help **save users time and effort**
- Content is available in a **variety of formats**, optimized for different requirements and devices
- **Ready-made Excel tables** are easy to handle and help users eliminate mistakes when extracting statistics
- **Helpdesk** and **support** services enable users to overcome problems to complete tasks quickly and effectively
- **Tools for librarians** make resource management easy and ensure top-quality service for patrons

New OECD Data

OECD Data aims at improving the **accessibility** and **reach** of OECD data for **expert** and **non-expert** users alike.

<https://www.youtube.com/watch?v=1nyJgpj4TbI>

The goal is to provide a centralised gateway to the most **accessible, comparable** and **high quality** statistical content across the OECD. The new Indicators are grouped by theme.

They provide data definitions as well as innovative interactive charting tools.

Gross domestic product (GDP)

Gross Domestic Product (GDP) is defined as the market value of the final goods and services (those bought by the end user) produced within a country during a set period of time. It is calculated by adding together household consumption, investment, public spending, change in inventory and the total of exports minus imports. GDP should not be looked upon as an all-encompassing measure for societies' well-being, as it does not include several aspects of

OECD Data indicators available from the OECD iLibrary

The **NEW** indicators available in OECD Data are also **discoverable** from within OECD iLibrary,

Replacing « key tables »

From Indicator pages, the user can access OECD Data

But also see other **related titles** published within OECD iLibrary

ALL usage to indicators and other tables is monitored in **COUNTER** reports

The screenshot displays the OECD iLibrary interface for the 'Foreign direct investment (FDI)' indicator. At the top, there is a search bar and navigation options. Below the search bar, the page is organized into several sections:

- Navigation:** 'Browse by Theme', 'Browse by Country', 'Browse by Theme & Country', 'Catalogue', and 'Statistics'.
- Indicator Page:** 'Foreign direct investment (FDI)' with DOI: 10.1787/9a523b18-en. It includes a 'List of Indicators' where 'FDI stocks' is selected, and a 'List of Related Titles' featuring 'OECD International Direct Investment Statistics 2014'.
- Data Visualization:** A line chart showing 'FDI stocks' from 2000 to 2013. The chart shows a general upward trend with some fluctuations.
- Data Table:** A table titled '1 Foreign direct investment inflows, US dollars' (Million US dollars) with columns for years from 2004 to 2013. The table lists data for various countries including Australia, Austria, Belgium, Canada, Chile, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Japan, and Korea.
